Skills

- HTML, CSS & JavaScript
- Microsoft Office (Word, Excel, Outlook)
- Bilingual (English C2, Spanish Native)
- Typing Speed: 60 WPM
- Git / GitHub
- DOM manipulation
- Prompt Engineering

Work Experience

Long Beach City College / Help Desk Support Specialist

Feb 2026 - Present

Diagnose and resolve technical issues related to web platforms (Canvas), authentication systems, and user accounts using ticketing systems and remote support tools. I guide students through step by step solutions while maintaining professional communication and high service quality. Additionally, I collaborate with team members to manage hardware and software troubleshooting through a dedicated ticketing system.

Hotel Mai / Front Desk Manager

Aug 2023 - Aug 2025

Managed 40+ guest check-ins/outs daily; handled calls, emails, and inquiries to ensure smooth operations. Recognized for professionalism and empathy. Reduced check-in time by 25% and trained new front desk agents. Utilized CloudBeds, AKIA, and Vacant PMS/property management systems. Designed and implemented an interactive housekeeping list in Microsoft Excel, increasing task completion speed by 30%.

One Link / Customer Advisor – Floor Support

Jun 2021 - Jul 2022

Supported Cash App users via chat and email, assisting with payments, transactions, and promotions. Promoted to Floor Support for monitoring quality and ensuring team performance. Improved response times by 35% by guiding agents in delivering quicker, more accurate client support.

Accedo Technologies / Supervisor

Jan 2020 - May 2021

Began as a Bilingual Agent assisting with healthcare appointments, handling 70+ calls daily. Promoted to Supervisor, leading a small team and ensuring service quality. Managed patient portals and records with confidentiality following HIPAA regulations.

Personal Projects

Caponera Web App: This is the web preview version for a mobile app I am building. It connects riders with motorized rickshaw drivers. The platform features interactive dashboards, a digital wallet, and tools for trip management.

Student Productivity Dashboard: A website created to stay on top of your classes, track your weekly activity and calculate your GPA. A Pomodoro timer is integrated so you can focus deeply and last but not least, you can also embed your YouTube, Spotify or Apple Music.

- **HTML, CSS, JavaScript**
- **React**
- **Local Storage**
- **Vite**

Academic Projects

Portfolio Website: I built this portfolio website to showcase my web development experience, personal background, and recent projects. It serves as a central place to view my skills and see my work in action.

- **Built with HTML, CSS, JavaScript**
- **Fully responsive design**
